### **Giving your preferences for the divisions (A/ B/ C/ D/ E/ F).**

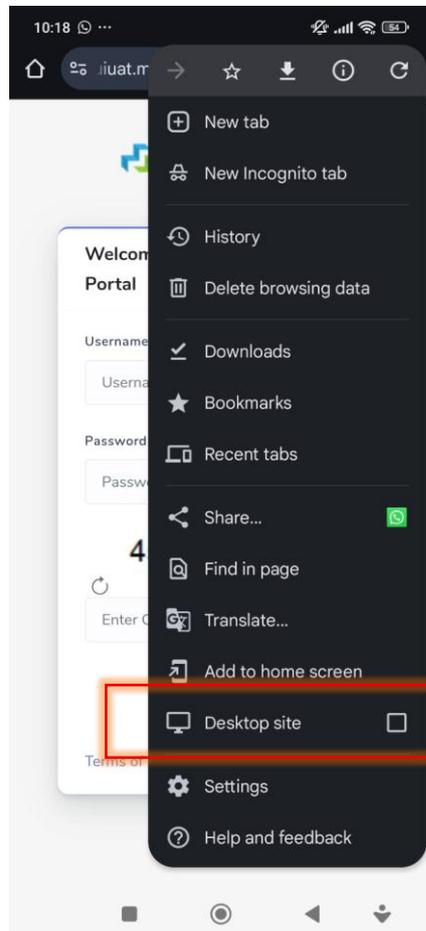

- 1. The division (Subject groups) will be allotted on the basis of your class XII marks.**
- 2. You select subjects as a group (division) and do not get to choose across the division.**
3. Once you select a division, all the subjects across the two semesters of that division get opted as a whole.
4. You need to give 5 preferences. Give a ranking to all the 5 divisions in the order of preference that you have for them.
5. Students with higher merit will get the preference of their choice and the chances of getting the first preference reduces as the class XII score becomes less.
- 6. Preference once opted cannot be changed. Mark the preferences very carefully.**
- 7. Division once allotted will not be changed.**
- 8. Open Electives under English Department and the two papers of Economics department are the only subjects that you need to focus deciding the preference.**
9. Please note, choose the subjects based on your interest. There is no variation in difficulty level of elective subjects. There is no special combination for the students of professional courses.
